Initial Case Report

Case Report # 2017-00015496

NARRATIVE

On 2/5/17 I was responded to Fairfax Mental Hospital for an assault.

I arrived on scene and met with [REDACTED].

[REDACTED] said she had called 911 at around 0600 hours to report the issue but had to leave to go to the doctors. She told me the officer had called her and asked her to call back when she could write a statement.

[REDACTED] called 911 again on 2/5/17 and I responded. [REDACTED] told me that on 2/3/17 at around 0400 hours she was working inside the Fairfax facility when a female patient, [REDACTED] jumped off the nurses station in an attempt to injure herself. She told me staff had to escort [REDACTED] to a safety room to administer some medication. She told me that she tried opening the door to let the staff and [REDACTED] kicked [REDACTED] in the left side of her abdomen. [REDACTED] said she is [REDACTED] months pregnant and was concerned for her baby so she went to the hospital where they discovered the baby had an elevated heartbeat. She said at this time there is no major issues to be concerned with. [REDACTED] told me she was medical staff but not a registered nurse.

[REDACTED] told me her co-worker [REDACTED] had made a report with an officer about the same incident. [REDACTED] said that since her baby's heart rate was elevated she wanted to be included in the report. She told me that she did not have a report number. I said I could look it up.

[REDACTED] provided me with a written statement.

I went to my car and attempted to look up the case number for the incident. I could not find any calls to 911 from Fairfax other than the one [REDACTED] made that she was not able to stay around for officer contact. I called [REDACTED] and asked her to attempt to find the case number and she said she could call [REDACTED] and get the case number from her. [REDACTED] called me back a few minutes later and said she was unable to get a hold of [REDACTED]. I explained that I was not going to be at work until 2/9/17 and she could call me then with the case number.

[REDACTED] called me on 2/9/17 and explained that she had not made a report about the incident to police but wanted to make one now. I went to Fairfax and met with [REDACTED].

[REDACTED] told me that at around 0145 hours on 2/3/17 a patient named [REDACTED] became angry when she was told she could not do laundry at 0145 in the morning. She became so aggressive it became necessary to medicate her at around 0400 hours. [REDACTED] said that [REDACTED] started throwing her clothes and going into other patients rooms. They deemed it necessary to medicate [REDACTED] and escorted her to the "Seclusion and Restraint" room. [REDACTED] said that [REDACTED] then grabbed her hair and pulled out a large clump of hair out of the right side of her head. [REDACTED] still had the clump of hair and handed it to me in a white envelope.

[REDACTED] is a registered nurse.

[REDACTED] provided me with a written statement.

Both [REDACTED] and [REDACTED] said that [REDACTED] was "alert and oriented X4" I asked what that meant and they said she knew who she was, what she was doing there, where she was and the date. This is a test that the nurses use to determine how alert and oriented the patient is. They said this meant the patient was not in a total manic state and knew what she was doing.

Initial Case Report

Case Report # 2017-00015496

NARRATIVE (continuation)

Because [REDACTED] pulled a hair out of the head of a registered nurse I find there to be PC to arrest [REDACTED] for Assault 3. Because [REDACTED] kicked [REDACTED] in the abdomen I find there to also be PC to arrest her for Assault 4.

I impounded [REDACTED]'s clump of hair as evidence.

I am referring these charges to the Everett District Court for charging.

Nothing further.
